Mr. McNevin

Neil McNevin

I taught for 32.5 years because I loved working with young people. A major part of my life was being involved in athletics and physical education. Once I got the "Coaching Bug" I was hooked. Teaching P.E. and Health and Safety Education was a great way to interact with ALL the students, not just the athletes. I wasn't perfect but I was trying to be a good role model as a teacher/coach.

Teaching at Half Moon Bay HS was very special to me. For the most part, the students were always very respectful which is extremely important to a teacher. Hopefully, I did enough things to gain their respect I had numerous friends who taught in other districts and after hearing their horror stories, I thanked God that I found HMB. Thinking back on it now, the Cougars were a perfect fit for an Ex-So. City Warrior.

Teaching was my job but coaching was a PASSION. Over the years, I've worked with some of the most dedicated and hard working young people. 99% of them gave me a 110% EFFORT. My biggest regret is not telling more of them how much I appreciated their time and effort. My biggest coaching thrills were watching my Cougars beat the BIG schools from over the hill. I loved every second of it!!!! The student / athletes at HMB gave me for more than I gave them...Amen-

Sincerely,

Coach McNevin
